EXPERIENCE

Power Platform Development

CodePoint Creatives - [Intern]

📅 November 2024 - February 2025 📍 A.A, Ethiopia

- Built 10+ low-code business apps using Power Apps and Power Automate to streamline workflows for departments like HR, Finance, and Logistics
- Created dynamic Power BI dashboards for management, enabling real-time decision-making and reducing reporting delays
- Collaborated with a cross-functional team to integrate Microsoft Dataverse and SharePoint data sources across internal tools
- Automated employee onboarding and leave request processes, reducing manual work by 60% and improving response time by 40%

Web Development

Nova Computech

📅 March 2025 - Present [Part-time] 📍 A.A, Ethiopia

- Contributed to UI/UX design and development websites using modern frontend tools and responsive design practices
- Currently leading the development of a full-featured web platform from scratch, handling documentation, UI design, backend architecture, and feature planning
- Collaborating with team members to build scalable backend APIs and secure authentication systems
- Actively applying version control and project management tools (GitHub) to maintain team workflow and delivery consistency
